

A legal force
for Europe

A legal force for Europe

Taylor Wessing offers a powerful source of legal support for commercial organisations doing business in Europe. Based primarily in the three largest economies in Europe, Taylor Wessing provides the full range of legal services to major corporations, financial and public institutions, growing enterprises and wealthy private clients.

Taylor Wessing is a full service European law firm with outstanding experience in serving industries rich in intellectual property and technology. We are also recognised for our strong market presence in the corporate, finance and real estate practice areas.

We are trusted by clients around the world to deliver constructive, commercial advice, partner-driven service and strength in depth in every part of our practice.

Unified service

With the increasing globalisation of business, companies expect their lawyers to act as a cohesive force wherever they're based.

Taylor Wessing can provide a single point of contact, a single source of advice and a truly unified service.

The world is shrinking and business is becoming ever more competitive. As our clients increasingly develop opportunities across Europe, a significant number of deals have a cross-border dimension. At the same time, a growing proportion of legal disputes have an international perspective.

Taylor Wessing is responding to the changing legal landscape

and rising to the business challenges of the future. Through our unified structure, we can assemble cross-border teams driven by a lead partner responsible for delivering services seamlessly from one location to the next. With effective communication, client liaison and exchange of market intelligence between offices, our focus is on supporting your business objectives and helping you succeed.

Constructive, commercial advice

Taylor Wessing offers the same high level of service wherever you choose to do business. Ours is a partner-driven approach, with just one focus: to help you succeed. We deliver pragmatic advice to achieve the best commercial outcome, combined with entrepreneurial flair to make the most of your opportunities.

We appreciate that for many businesses the domestic market continues to be crucial. Whether you are operating in national or international markets, we offer the same approach. Partners remain involved and committed throughout the project, building close, durable relationships so crucial to success.

The quality of our service reflects the quality of our people. Many of our lawyers are recognised as specialists who are among the best in their fields. Our teams draw on technical expertise, industry knowledge and business experience to find the best commercial solution to meet your objectives.

Industry knowledge

Our goal is to provide practical support as you tackle new challenges. Whether setting up in a new market, expanding across Europe or building links around the globe, you can trust us to help you achieve your ambitions.

A trusted ally

We are regarded as one of the leading advisers on inward investment from the US into Europe, with the ability to provide co-ordinated support if you intend using the UK, Germany or France as a springboard for wider European expansion. For Asian-based companies, our representative office in Shanghai provides a similarly effective gateway to Europe.

The Shanghai office also supports European companies investing in Asia, drawing on our extensive contacts and

clients in China and elsewhere in the region. Our Brussels office advises on competition issues and provides practical guidance on state aid, public procurement, EC regulation and EC and WTO trade law.

We provide an on-the-spot connection with the Community Trade Mark Office through our representative office in Alicante.

To complement our international reach, we provide access to the Middle East through our association with Key & Dixon in Dubai.
