Taylor Wessing India Group

India has one of the fastest growing economies in the world and is regarded as a vital market for many established clients of Taylor Wessing.

We assist with outbound investment from Indian companies looking to expand into Europe, the Middle East and beyond, as well as providing practical legal advice to European and International clients looking to enter the buoyant Indian market.

Taylor Wessing has a long history of experience in dealing with all sectors of Indian industry. Our lawyers have not only worked in private practice but also as in-house counsel for major multi-nationals and various utilities conglomerates.

International network

Taylor Wessing is a truly international law firm with 13 offices across Europe, the Middle East and China. In addition, we have developed close relationships with leading firms in all major jurisdictions, including North America, India, and the rest of Europe. However, our clients will always have one point of contact for such work within Taylor Wessing.

Our team

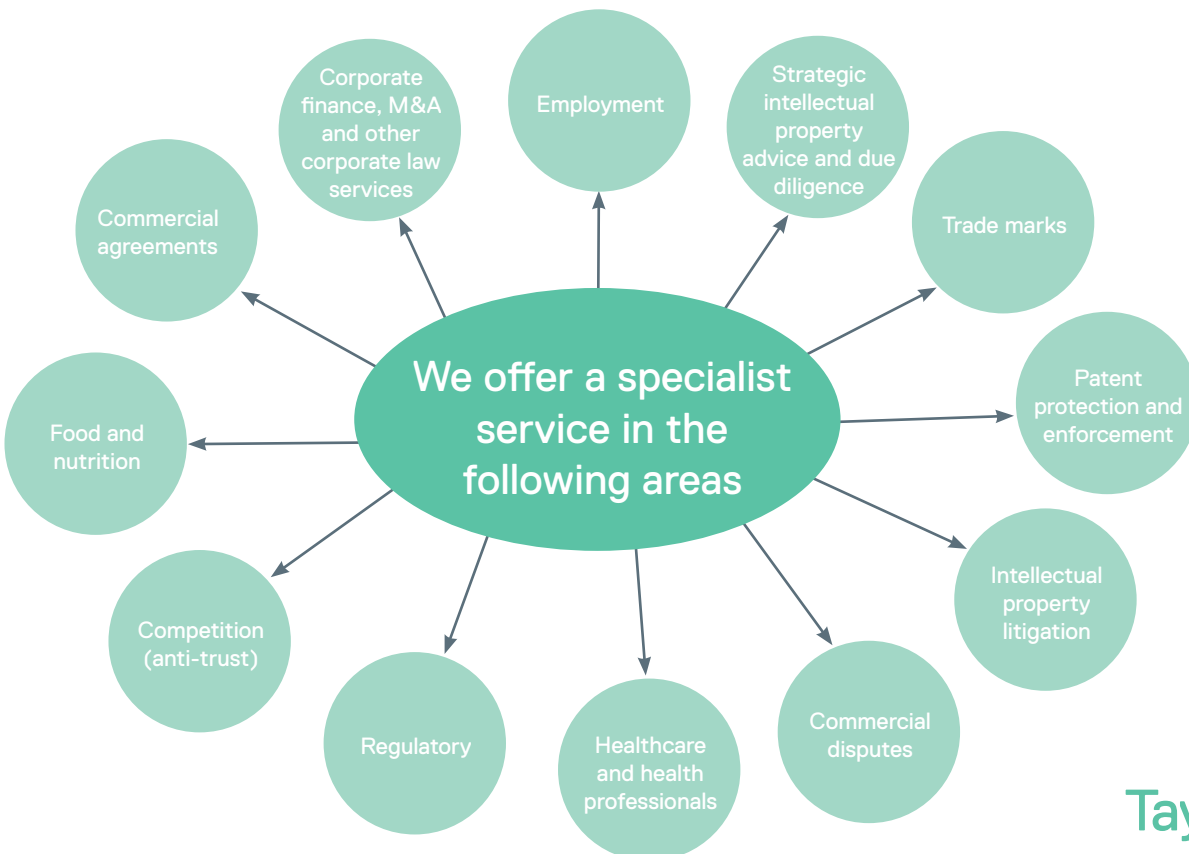

Key members of our India Group regularly travel to the country and have developed strong relationships with several key firms and intermediaries in India. Our combination of in-depth sector knowledge, experience, and our ability to offer the full range of the relevant legal services within the key jurisdictions of the UK, France, Germany, Belgium, UAE and China as well as our ability to co-ordinate the work of lawyers in India distinguishes us from others.

Life science and healthcare

Taylor Wessing has a dedicated Life Sciences & Healthcare Group, which advises a diverse range of clients from a number of multinational pharmaceutical 'giants' and listed biotech companies to the earliest biotech start-ups. The Group provides a top-quality, multi-disciplinary service to its Indian clients in the core Life Sciences & Healthcare sector.

“Leveraging off the firm’s IP expertise, Taylor Wessing LLP’s London and Germany teams handle a raft of India-related corporate and financing work for technology corporates.”
